D07: INFANITY 3D Hologram

The INFANITY 3D Hologram is an advanced animation technology which makes your logo and products come to life. The animations are displayed using a hologram to create the illusion that the images are floating in the air. Using only a spinning fan, the technology is powered by 180 high-resolution LED lights that flash on only four light strips, which gives an eye-catching and vibrant effect for your logo and products.

To tailor to your needs, we have extensive animation offerings with various fan sizes of up to 100 cm. This allows you to project an incredible 3D animation as wide as 3.8 meters, or bigger by using multiple units (up to 6 to 28 units of 65cm-diameter fans). Seize this fantastic opportunity to connect with your audience both visually and emotionally!
