

### Visa & invitation letter

Minimise delays by contacting your local embassy or consulate for the latest requirements. Applicants can contact the GILE team for assistance on obtaining an official invitation letter.

Request for official invitation letter

### Currency

China's currency is the Renminbi (RMB).

### Time

The time is GMT+8 all year around.

### Electricity

The electricity current is 220 volts / 50 hertz alternating current (AC).

### Getting to the fairground

**By taxi:** Taxis are the quickest and most convenient means of transport to the fairground from the airport.

**Please show this address to the taxi driver:**

**中国广州海珠区阅江中路380号  
中国进出口交易会展览馆5号门**

**By Guangzhou Metro:** fare range from RMB 2 to RMB 12.

Visitors should get off at **Xin Guang Dong Station (Exit A)** to visit **Area A (Hall 1.1, 2.1, 3.1, 4.1, 5.1, 6.1, 8.1, 2.2, 3.2, 4.2, 5.2)**

OR get off at **Pazhou Station (Exit A)** to visit **Area B (Hall 9.1, 10.1, 11.1, 9.2, 10.2, 11.2, 9.3, 10.3, 11.3)**

### Contact information

GILE team  
3506, China Resources Building  
26 Harbour Road, Wanchai, HK  
Tel: +852 2238 9969 – Ms Scarlet Mak  
Email: light@china.messefrankfurt.com

# You're invited to GILE 2026

We cordially invite you to the 2026 edition of the Guangzhou International Lighting Exhibition (GILE). This prestigious event brings over 2,500 exhibitors of lighting products, LED technologies, and smart solutions together under one roof.

Don't pass up the opportunity to meet face-to-face with international business leaders, through matchmaking opportunities. With the **#BetterBuy**, **#SmarterBuy**, and **#ConfidentBuy** initiatives, the exhibition stays connected with the latest developments in the industry to ensure we can inform your purchasing decisions.

For more details about the show, please visit:  
[www.light.messefrankfurt.com.cn](http://www.light.messefrankfurt.com.cn)

Warm wishes,  
The GILE Team

## Fair facts

### Show dates and opening hours

9 – 11 June 2026 09:30 – 18:00  
12 June 2026 09:30 – 14:00

### Admission

Trade visitors only  
Persons under 18 not admitted

### Enjoy hassle free registration

Register for free admission on or before 1 June 2026

Scan the QR code or click into the below website for registration  
[www.light.messefrankfurt.com.cn](http://www.light.messefrankfurt.com.cn)

\*GILE is held concurrently with Guangzhou Electrical Building Technology (GEBT)

### Venue

China Import and Export Fair Complex, 380 Yuejiang Zhong Road, Haizhu District, Guangzhou, China

### Area A:

Level 1: Hall 1.1 – 6.1, 8.1  
Level 2: Hall 2.2 – 5.2

### Area B:

Level 1: 9.1 – 11.1  
Level 2: 9.2 – 11.2,  
12.2 – 13.2 (GEBT)\*  
Level 3: 9.3 – 11.3

## Enjoy incentives – Visitor programmes

### Power Match Programme – Global Lighting Market Intelligence Group Delegation Programme (over 15 delegates)

The Power Match Programme is a networking event held from 9 – 11 June 2026 at GILE. Visitors can benefit from the programme by interacting and engaging with their target suppliers, providing an opportunity for casual business discussions.

- Cash incentives
- Business matching
- Unlimited access to the overseas buyer's lounge
- A free set of souvenirs
- Complimentary fair catalogue

For interested parties, please direct your correspondence to Ms Scarlet Mak via email at [light@china.messefrankfurt.com](mailto:light@china.messefrankfurt.com), using the subject line "Power Match Programme." Alternatively, you can reach us by phone at +852 2238 9969. Rest assured, we will respond to your message within seven working days.

### Group buyer pre-registration (over five delegates)

Group buyer pre-registration can enjoy extra benefits:

- Pre-show badge mailing service
- Complimentary fair catalogue
- A free set of souvenirs

Download the group buyer pre-registration form at [www.light.messefrankfurt.com.cn](http://www.light.messefrankfurt.com.cn) and returned via email at [light@china.messefrankfurt.com](mailto:light@china.messefrankfurt.com)

### Remarks:

- The above visitor programmes are exclusively for visitors outside China.
- Incentives are offered for onsite redemption only. Eligible applicants must provide all documents requested by the organiser upon redemption.
- Exhibitors (including branch offices, subsidiaries and joint ventures) or non buyer-based companies are not eligible for the above incentive programmes.
- The organiser reserves the right to change any programmes' details or gift options without prior notice.
- The organiser reserves the right to accept or refuse any application without disclosing the reason and hold the final decision in dispute cases.
- Visitors can only apply for one incentive programme for GILE2026.

#Better Buy

A broad  
product  
portfolio

## Three major sourcing categories

### Production sector

LED packaging  
materials and  
substrates

Electronic  
components

Optical  
components

Measurement  
and testing  
equipment

### Technology sector

Power supplies,  
drivers and  
electronics

New display  
technologies

LED Light  
engines and  
modules

AI  
lighting

UV/IR

Bio-optics

Photovoltaics

Human-centric  
lighting

### Application sector

Residential  
lighting

Commercial  
lighting

Architectural  
& landscape  
lighting

Electric  
light sources

Street and  
transport  
lighting

Agricultural  
lighting

Industrial  
lighting

New media  
arts

# One-stop sourcing platform

# Cross segment cooperation

## Production sector

### LED packaging materials and substrates

- Substrates & packaging materials: epoxy, silicone, conductive silver paste
- LED packaging, devices & modules

### Optical components

- Diffusion, condensers, lenses and films
- Reflectors
- Spectrometers

### Missing bullet point

- Connectors
- Ballasts, capacitors and relays

### Measurement and testing equipment

- Measurement instruments, spectral, illuminance, thermal & aging testers, power testers
- Testing & certification
- Design software
- Smart services

## Technology sector

### New display technologies

- Digital display terminals
- Autostereoscopic 3D displays
- Digital out-of-home (DOOH)
- Extended Reality (XR), virtual production

### AI lighting

- Intelligent lighting hardware and components
- Chips
- Cloud technology, IoT technology and software
- Smart lighting application

### LED speciality application

- Bio-optics
- UV/IR

### Power supplies, drivers and electronics

- Switching supplies
- LED drivers and driver ICs
- Converters, inverters and rectifiers

### New energy and low carbon lighting

- Energy storage batteries
- Inverters
- Photovoltaic modules/panels
- Wind powered lights

### Healthy lighting

- Human-centric lighting
- Full-spectrum technology
- Circadian lighting

# Diversified applications

## Application sector

### Residential lighting

- Wall lights
- Vanity and bath lights
- Table and reading lamps
- Under cabinet lights
- Floor lamps
- Track lights and spotlights
- Chandeliers
- Crystal lights
- Flush mount and ceiling mount lights
- Night lights
- Downlights
- Linear lights
- Mainless lighting
- Pendent lamps

### Commercial lighting / industrial lighting

- Fluorescent lights
- High-bay lights
- Recessed and suspended linear lights
- Recessed downlights
- Track lights
- Step lights
- Canopy lights
- Runway lights
- LED strip lights
- Linear lights
- Exit and emergency lights
- Floor lights
- Indoor ceiling and wall-mounted lights
- High and low bay lights
- Tunnel lights
- Explosion-proof and mining lights
- Vapour-proof lights
- Hazardous lights

### Architectural & landscape lighting

- Wall lanterns
- Hanging lanterns
- Garden lights
- Post lights
- Spot lights and floor lights
- Solar lights
- Floodlights
- Parking lot lights
- Deck and step lights
- Pathway and trail lights
- LED strip lights

### Street and transport lighting

- Street lights
- Smart street lighting solutions
- Tunnel lights
- Smart lampposts

### Cultural-tourism & visual experiences

- Light art installations
- Augmented Reality (AR) and Virtually Reality (VR)
- Projection lamps
- Tourism landscape solution
- Digital art and project mapping
- Laser lights

### Bio-optics and smart agriculture

- Horticultural lighting
- Poultry house lighting
- Plant factories and greenhouses
- Intelligent agricultural lighting solution

### Electric light source

- Fluorescent lamps
- CFLs
- Halogen lamps
- HID lamps
- LED bulbs

## Tap into a new market

# Product-based hall arrangement

# Effective sourcing

# Area A

## Level 1

- Hall 1.1 Cultural and tourism lighting
- Hall 2.1 Landscape lighting
- Hall 3.1 Hall of innovation: Outdoor lighting
- Hall 4.1 Hall of innovation: Outdoor lighting
- Hall 5.1 Street lighting
- Hall 6.1 数智赋能·科技筑家
- Hall 8.1 China Lighting Capital Hall

## Level 2

- Hall 2.2 LED drivers
- Hall 3.2 LED drivers
- Hall 4.2 Chips and LED packaging
- Hall 5.2 Electronic component and production equipment

# Area B

## Level 1

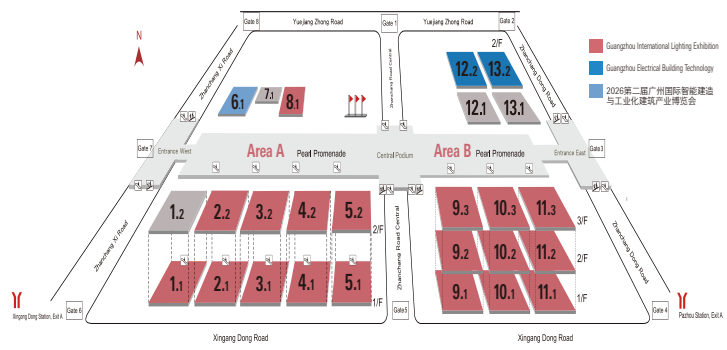

- Hall 9.1 Household lighting
- Hall 10.1 Artistic lighting
- Hall 11.1 Commercial lighting

## Level 2

- Hall 9.2 Hall of innovation: Indoor lighting
- Hall 10.2 AI lighting supply chain
- Hall 11.2 Hall of innovation: Indoor lighting
- Hall 12.2 Automation and solutions, smart audio-visual and audio visual entertainment systems
- Hall 13.2 Home automation, low carbon smart buildings and power supply and distribution

## Level 3

- Hall 9.3 Household lighting
- Hall 10.3 AI lighting
- Hall 11.3 Commercial lighting

#Smarter  
Buy

Are you in need of  
new market insights?

## Seven themes to explore the new trends

### Hall 1.1

Area A

#### Cultural and tourism

Dedicated to the deep integration of digital technology with cultural, commercial, and tourism environments this hall showcases the latest technology including naked-eye 3D, holographic projection, interactive floor projections, and AR/VR.

### Hall 3.1

#### Low-carbon and smart city

Hall 3.1 focuses on low-carbon lighting, smart streetlights, green building practices, and urban renewal to advance urban sustainability and intelligent upgrades. It comprehensively covers technologies and solutions for landscape, outdoor, architectural, and road lighting, as well as the smart streetlight ecosystem and new energy lighting.

### Hall 2.2 – 4.2

#### New quality production

Powered by Mini/Micro-LED and full-spectrum chip technologies, Halls 2.2 to 4.2 will focus on new applications in AR/VR, automotive, and plant lighting to build new pathways for healthy light environments. Through modular intelligent manufacturing, the halls will provide a closed-loop supply chain from chips to systems.

### Hall 9.1 – 9.3

Area B

#### Household spaces

This hall will showcase how emotion-sensing interaction and health-focused lighting technologies are transforming lighting devices, unlocking the potential of the household market, and driving significant growth in the industry's value.

### Hall 10.1

#### Bio-optics and smart agriculture

As efficient lighting technologies such as LED continue to evolve, the future of agricultural lighting is brighter than ever. Hall 10.1 will serve as a dynamic platform for collaboration between academia and industry, facilitating high-level exchanges in the fields of bio-optics and smart agriculture.

### Hall 10.2 – 10.3

#### AI lighting

These halls will highlight how AI lighting simulates natural daylight around the clock to enhance well-being and improve energy efficiency. With intelligent features like mood sensing, fiber optic sensing, and cognitive dimming, they foster a natural connection between people and lighting.

### Hall 11.1 – 11.3

#### Commercial spaces

Halls 11.1 – 11.3 will showcase how light is evolving from a simple supporting element to a key factor in shaping environments, connecting people, goods, space, emotion, and data to create interactive and replicable commercial systems. They will enhance offline experiences and drive business growth.
